ARTHON & Affiliated Companies | SANDHILL MATERIALS INC. ARTHON CONSTRUCTORS CORP. · Kho-Loon

Arthon Constructors Corp. and Sandhill Materials Inc. are Arthon Industries Ltd. companies.

We respectfully acknowledge that Sandhill Materials operates, and our teams live and work, on x̱à'isla ẁáwís, the unceded territory of the Haisla Nation.

ARTHON & Affiliated Companies | SANDHILL MATERIALS INC. ARTHON CONSTRUCTORS CORP. · Kho-Loon

ARTHON AND SANDHILL MATERIALS, IN JOINT VENTURE WITH KHO-LOON VENTURES

KITIMAT'S CONTRACTOR AND MATERIALS SUPPLIER, IN ONE PARTNERSHIP

Arthon Constructors Corp. and Sandhill Materials Inc., in joint venture with Kho-Loon Ventures, deliver general contracting, industrial site services, and materials management for Kitimat's industrial sector.

A LOCALLY PARTNERED GENERAL CONTRACTOR AND MATERIALS HUB FOR KITIMAT

Kitimat sits on xa̱'isla ẇáwís, the unceded territory of the Haisla Nation. Here, Arthon Constructors Corp. and Sandhill Materials Inc. work in a joint venture with Kho-Loon Ventures, the company of Haisla member Jake Duncan. Kho-Loon brings local ownership and shared benefit to every project.

Few companies in the region can manage industrial material from generation to final disposal under one umbrella. Arthon does the field work, and Sandhill supplies certified aggregate and takes back the material projects leave behind.

TWO-WAY INTEGRATION

GENERAL CONTRACTOR

ARTHON CONSTRUCTORS

Heavy civil · Earthworks · Site preparation · Roads and highways · Industrial site services · Mining and reclamation · Hazardous material logistics

ARTHON BUILDS
Hauls and places Sandhill aggregate on civil, earthworks, and highway projects

SANDHILL SUPPLIES
CSA/ASTM-approved sand and gravel, riprap, and armour stone from Kitimat

ARTHON RECOVERS
Surplus soil, rock, and demolition material from Kitimat project sites

SANDHILL PROCESSES
Sorts, crushes, and recycles material for reuse or compliant disposal

MATERIALS SUPPLIER

SANDHILL MATERIALS

CSA/ASTM sand and gravel · Quarry rock · Riprap and armour stone · Material stockpiling · Surplus soil and rock acceptance · C&D recycling

IN PARTNERSHIP WITH KHO-LOON VENTURES AT EVERY STAGE.

ARTHON CONSTRUCTORS CORP. / KHO-LOON JOINT VENTURE

General contracting for heavy civil, earthworks, industrial site services, and mining in Kitimat.

FEATURED

- **Heavy civil construction,** from bulk excavation to infrastructure, utilities, and highway work
- **Industrial site and facility services,** providing ongoing civil, earthworks, and equipment support to operating plants and terminals
- **Hazardous material handling and logistics,** covering the excavation, loading, and transport of contaminated soil and regulated materials under the Transportation of Dangerous Goods Regulations

ALSO OFFERED

Site preparation and earthworks · Mining and reclamation · Road and highway construction · Industrial waste stream management · Environmental and site remediation support

SANDHILL MATERIALS INC. / KHO-LOON JOINT VENTURE

A 267-hectare aggregate and materials facility in Kitimat, close to ice-free, deep-water port access.

FEATURED

- **Aggregate production and supply,** with CSA/ASTM-approved sand and gravel aggregates for concrete, asphalt, and construction
- **Waste soil storage and surplus excavation acceptance,** providing a local destination for surplus soil and rock from Kitimat projects
- **Material recovery and beneficial reuse,** turning surplus soil, rock, and demolition material back into usable products

ALSO OFFERED

Aggregate processing · Quarry development and operations · Riprap and armour stone · Material stockpiling and logistics · Construction and demolition (C&D) recycling

PROVEN ON KITIMAT'S LARGEST INDUSTRIAL SITES

Sandhill supplies aggregate to LNG Canada and receives waste material from demolition and construction at its marine terminal. At Rio Tinto's Kitimat operation, Arthon recovers surplus industrial material and hauls it to Sandhill for processing, recycling, reuse, or disposal.
